

ClearClick Video2Digital Converter 3.0 Instructions

Quick Start:

- Plug the ClearClick device and VCR into a power source and turn them on
- Connect the ClearClick device and VCR using the RCA cord (red, white, yellow cord)
- Insert a flash drive to the ClearClick device

You're now ready to digitize!

- Insert your VHS tape and press play on the VCR
- Press record on the ClearClick device
 - Note: the transfer rate is in realtime, so the tape will need to play

Need video instructions? No problem!

- Simply scan the QR code at the bottom of this page or type in this link into your computer.
